ACT I

ADMINISTRATION

In 1927, Dr. Sprague organized a four year program, changing Montclair from a Normal School to a State Teachers College. The years before had been spent in persevering preparation for the major role he was to play in the field of teacher education. He has, as president, led us through years of prosperity, depression, and war, until now, our college has become one of the finest of its kind.

Under his administration, enrollment has been more than doubled, part-time extension, summer session, and graduate work for the Masters degree have been developed. Furthermore, many special activities and departments have been established. During this period of expansion, regional and national accrediting associations inspected and approved the college; Montclair became a member of The American Association of Teachers Colleges, The Middle State Association of Colleges and Secondary Schools, and The Association of American Universities.

Dr. Sprague has made us proud of our Alma Mater and of ourselves. His outstanding leadership has provided inspiration for success to all prospective teachers at MSTC.

Program

In 1903 the State Board of Education recommended that a Normal School be established in the northern part of the State of New Jersey. Originally twenty five acres in Upper Montclair were purchased, but by 1929 more land to the north of the main campus had been acquired, and the property amounted to a total of seventy acres. On May 27, 1927 the Normal School became a State Teachers College for the education of secondary school teachers, and the first class was graduated as such in 1930. Two years later it was voted that the college offer graduate courses and grant a Master's degree.

Montclairites take pride in the beauty of the campus, and a part of college tradition is the amphitheater where assemblies, graduations, and social gatherings of all sorts are held, weather permitting. Another traditional feature of the campus is its beautiful view of the New York skyline and the surrounding metropolitan section.

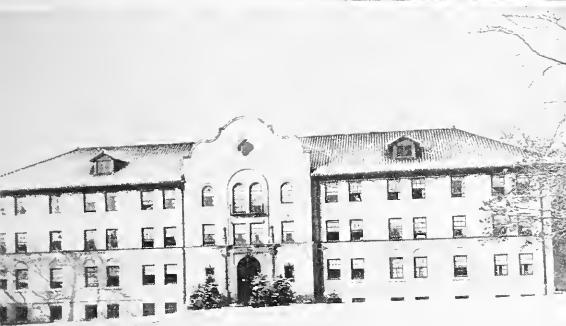

College Hall, now familiarly known as the "Ad Building," was completed in 1908. In this building are situated the administrative offices, the library, class rooms, the college gym, cafeteria, and several student lounges. The Administration Building serves as the nerve center of the college around which revolve campus activities and functions.

The College High School, located to the north and east of the "Ad Building" serves as a demonstration school. Here college students observe teachers and students in classroom activities.

Enrollment in Montclair classes soared with the end of the war and the return of Veterans to college. As a result, three War Assets buildings were erected on campus to accommodate math, business and science classes. Many were the adaptations made by Montclair, both during and after the war.

Notes

Russ Hall was the first women's dormitory built on campus. Originally there had been no dorms at Montclair, but in 1915 Russ Hall was erected with the bequest of the Honorable Edward Russ who at the time of his death was a member of the State Board of Education and chairman of the Normal School Committee. Designed in the Spanish Mission style to conform with the architecture of the other campus buildings, Russ now houses primarily freshman and sophomore girls.

In 1929 another women's dormitory was completed. Named Chapin Hall, it was built in the memory of Dr. Charles Sumner Chapin who was the first college president serving from 1908 until 1924. Mrs. Maude Carter, who later became Dean of Women, was the dorm's first house-mother. Chapin Hall now houses junior and senior girls.

A larger student body brought with it another problem —housing. For married Vets and their families converted army barracks were erected near the tennis courts just beyond the College High. Thus, College Heights was born, and with it were added to the campus, baby carriages, wash days, and diapers.

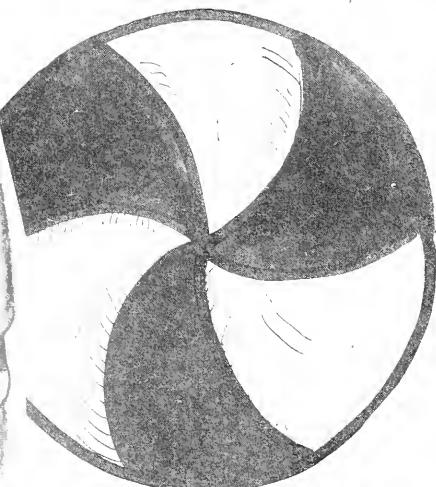

In the summer of 1947 Robert Hall opened its doors to Montclair men who wished to live on campus. This converted army barrack was quickly filled to capacity, and even more room was found needed. As a result, soon followed Alca Hall and Dat's Hall; original names, to say the least!

The history of Montclair State Teachers College as written in this behind-the-scenes story has hardly been touched upon. If space permitted, certain to be included would be Sprague Field which was completed in 1938 and the Art Workshop in which Montclairites gather to paint, sculptor, and enjoy creative art.

The program of the college has been expanding constantly ever since its conception in 1903. Extension courses and summer sessions are well established, and MSTC has grown into a highly accredited institution whose students are known and accepted all over the nation.

STUDENT GOVERNMENT ASSOCIATION

Very often, a college is judged by the type of organization the students themselves allow to govern their activities. The SGA at Montclair is an excellent example of an efficient, well-operated unit. This unit is democratic; its officers are chosen by the students through closed ballot procedure.

Every student activity on campus is closely affiliated with the Board of Trustees, which is the executive branch of the SGA. It is through this board that new organizations become recognized by having charters granted them, and established clubs procure necessary funds from

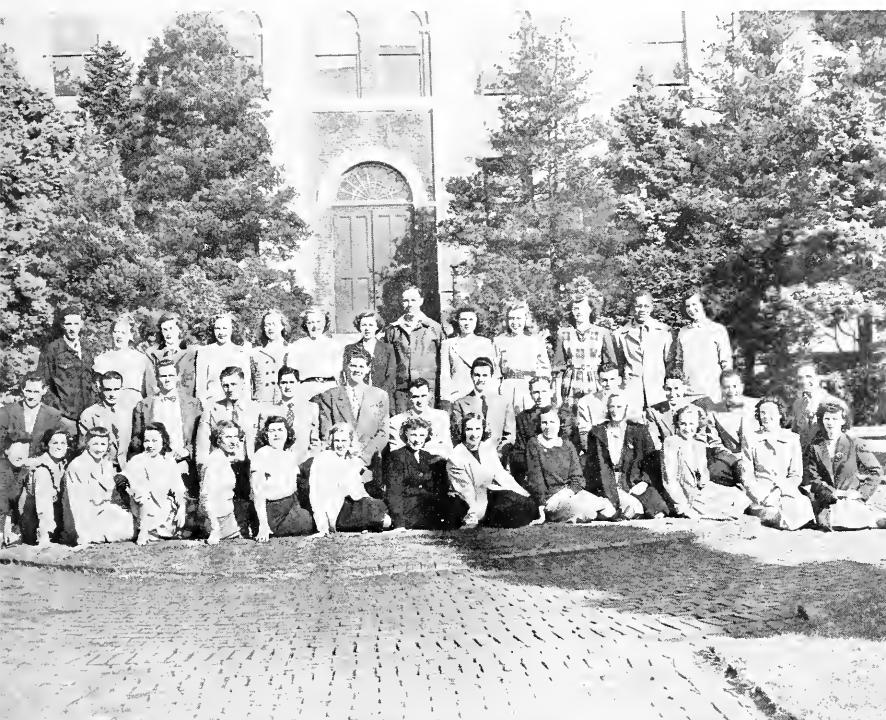

it to aid in carrying on their programs for the term. The Board consists of the class presidents, two representatives from each class, and the officers of the SGA. Regular meetings are held bi-monthly in the faculty lunch room. These meetings are open to all students who attend college, and their attendance is welcomed and encouraged by the board. The SGA also sponsors assembly programs, and one of the most active college groups, formed by the SGA itself, has been the War Memorial Fund Committee.

Through such an organization, democracy exists at Montclair, in practice, as well as in name.

As the Montclair chapter of the national education honor society, Kappa Delta Pi, Gamma Epsilon has played a vital role in student life as the highest achievement on campus.

An impressive candlelight initiation ceremony and the traditional Eighteenth Century Coffee House are two of the year's most colorful meetings.

Each year Who's Who Among Students in American Universities and Colleges recognizes students from approximately six hundred colleges and universities in the United States and Canada. In selecting students to be recommended, the campus nominating committees are asked to consider outstanding effort and accomplishment in academic work, extracurricular activities and service to the school. During the school year certificate awards are presented to all students selected. In connection with the honor program, a placement service is provided through which members may be recommended for employment.

A meeting place for budding executives and business dynamos is this long-awaited outgrowth of the Commercial Club. Meetings are focused on live-wire world issues, and from an informal setting radiates an ever burning hope that the club is another step along the path towards the organization of an honorary business education society.

Never to be forgotten are the fascinating whirlwind trip to the New York Stock exchange and the picnic finale to a year of constant activity.

COMMUTERS' CLUB

A haven for the bus ticket brigade and "by dawn's early light" travelers is the spirited Commuters' Club. Its ranks have swelled so in the first years of its organization that now it is one of the largest clubs on campus.

At MSTC it was this club who taught the campus Joes and Janes to "do-si-do" at their barn dances. Besides this the schedule was filled with a basketball game, those hot dog sales, and finally the gala hayride, a fitting end to an active season.

The members of this club, genuinely interested in people and what makes them what they are, meet once a month to discuss and delve into the realms of psychology. No, they don't pretend to be aspiring psychologists, but they certainly do enjoy themselves trying!

One of the most fascinating meetings this year was centered around the Rorshach blot test. Movies and discussion periods have enlightened other club gatherings, while the fall hot dog roast satisfied appetites as nothing else can.

Psych Club, as it is affectionately called, is not all fun and good times, however, for the main purpose of this club, has been the application of psychology as we learn it in the classroom, to actual life situations.

SIGMA PHI MU

President	JOHN YEAGER
Vice-President	GEORGE FORBES
Secretary	JOAN BURGESS
Treasurer	CLARENCE HOLNER
Adviser	DR. HOWARD F. FEHR

Here we find congregated the campus mathematicians. Club meetings, held each month, provide an excellent opportunity for these math majors and minors to discuss ideas for future teaching.

Meetings, however, are not all centered about the professional aspects of math, for here trick puzzles, problems and games bewilder club members, yet provide fun and stimulation. Guest speakers, movies, square dances and roller skating parties further enrich club activities. At Christmas time Sigma Phi Mu unites with its sister organization for an evening of Yuletide celebration and merriment. A joint meeting with the Science Club is another yearly event on the agenda. This year, all who attended will remember the inspiring and informative talk on the atomic bomb.

Yes, math students can well be proud of this active and enthusiastic organization.

Vice-President	ROSINA DE ROGATIS
Secretary	LENA FUSCO
Treasurer	PAUL ST. HILAIRE
Adviser	MISS VALENTINE TONONE

In order to better acquaint themselves with France, its people, its customs, and its folklore, the members of Le Cercle Francais gather the third Monday of every month.

The French Club this semester has continued its commendable work of sending monthly packages containing such useful articles as razor blades, cigarettes, and foodstuffs to two French college students.

A soiree at which they introduced two visiting French students to the Montclair campus was also sponsored by the club. Other undertakings have been to send toys at Christmastime to the children in Martinique, and to collect warm clothing for the French.

In addition to furthering intercultural relations, the members of the club find the experience useful in guiding extracurricular activities when they go out teaching.

Animation! Spirit! Activity! The enthusiasm and atmosphere created by the members of the Spanish Club pervade the entire student body.

Who has not been attracted by the sound of clinking castanets in lower hall? — by those dancing feet in Room E accompanied by Miss Peloro rendering Latin rhythms in her own inimitable style? — or by those colorful fiestas under the able direction of Miss de Escoriaza?

This year the hustle and bustle of all members is even greater than usual with all talents, efforts, and free hours dedicated to one end—the forthcoming production of the "Three Cornered Hat." It is guaranteed to be a pageant the college will not soon forget. "Viva El Sombrero de Tres Picos y Nosotros!"

Treasurer	CHRISTINE PRESTIFILIPPO
Advisors	MISS ETHEL F. LITTLEFIELD DR. WALTER H. FREEMAN

Inter nos—"among ourselves"—is the spirit perpetrated throughout this organization. Together the students become acquainted with the Roman culture and language by participating in social activities woven around Roman customs. These individualists refuse to allow the classical languages to remain "dead languages."

Every fall a "Get-together Picnic" is held at which the upper classmen meet and initiate incoming freshmen. The main event of the year is the Roman Saturnalia during which typical Latin customs are observed. In the spring Inter Nos makes an annual trip to New York to visit the Metropolitan Museum and see a play. The season draws to an end with revival of a Roman banquet.

The culture of sunny old Italy provides the setting for the Italian Club at Montclair. Here members gather to enjoy meetings featuring the food, dancing and customs of that southern land.

Although membership in this group is not restricted, many of Italian parentage belong. Students come to learn more about the country of their ancestry, and to develop a fuller appreciation and understanding of its people.

The club agenda includes an annual banquet which provides an opportunity for club connoisseurs of Italian food to gather to compare notes and explore menus the Italian way.

As well as enlarging their own fields of interests, the members of Il Circolo Italiano are contributing to the furtherance of better world relations.

The IRC proudly accepts the "Club of Distinction" title for doing one of the best jobs in molding naive college fledglings into semi-connoisseurs of world affairs.

This year's steady whirl of activities pivoted around the three day Middle Atlantic Conference held on campus last fall—a really breathless weekend.

Pleasure from hard work is its reward. As the IRC ends another season it is happy to feel that it has done its small part in cementing friendlier world-wide international attitudes.

Clio, women's honorary Social Studies society, is another of the outstanding groups on campus. This club is well known for its cake sales and its humble pledges who must parade through the dignified halls of MSTC dressed as famous historical characters.

Its members meet once a month in Chapin Hall to discuss current world-wide problems presented by speakers and Clio committee groups. With May comes the traditional long-awaited trip to New York, and in June, the Senior Week picnic, a final tribute to Clio members about to become alumnae.

Intercultural Relations Group is the kind of club that is not primarily interested in having a good time. Instead, its members are vitally concerned in working to promote democratic brotherhood through an understanding of the different groups that comprise our society. They believe that words are not enough, and that positive action must be taken against any forms of racial or religious prejudices.

Activities were extended beyond the campus in work with other similar organizations, and the program for the year included studies of the minority groups in America in order to develop an understanding of their problems.

Designed to promote good fellowship among Montclairites interested in photography, this club is one of the newer organizations on campus. Membership is open to anyone who owns or has access to a camera. LEADERS' WORKSHOP

A worthwhile organization, the Leaders' Workshop is definitely a club with a purpose.

BAND

All who attended football games this season agree that the band has proved itself an organization of which Montclair can be proud.

The new "Fight Song" by band members Westerdale and Planska has set many feet tapping as the band maneuvered on the field in snappy precision.

Vivid red and white uniforms, trick marching formations, and the twirlers have all helped to boost spectator and team enthusiasm one hundred per cent.

Here may lie the proving ground for America's potential writers. Original manuscripts contributed by members were read and discussed at club meetings this year. In a very informal atmosphere, the students listened and commented on their own creations. The club, therefore, has been not only valuable in the analysis of talent in the field of writing, but has provided training in constructive criticism as well.

Singing a capella, the choir has thrilled many, not only here at Montclair, but in various parts of the state as well. Choir members will never forget those performances at surrounding high schools and churches, trips to Atlantic City, and, above all, the broadcasts they've made this year.

ZETA PHI

Zeta Phi is the "infant industry" which the newly formed speech department has produced. Its prime concern is to blend a round of speech activities with a desire to show that speech has its place in education.

Its disciples this past year have devoted themselves to choral speaking, to pantomimes, to acting and to public speaking. All are drawn together by a potent common interest—SPEECH.

The range of activities of this unit has included provision of entertainment for Veterans Administration Hospitals and the arrangement of courses in swimming, life saving, water safety and first aid. College students were also organized to drive with the Chapter Motor Corps.

Participants in this unit realize that although the war is over, the Red Cross still has a job to perform.

Montclair has once more gained prominence in collegiate sports circles. Increased enrollment has brought forth more athletes, and as a result, better teams of a greater variety.

Composed exclusively of "Letter men," Tribe strives to stimulate interest and activity in a sport program and the betterment of the school's athletic standing.

Spearheading the drive for our College War Memorial Fund, Tribe has donated more than four hundred dollars. Other contributions to the school include the electrical score board in the gym, the trophy case, and athletic equipment.

Tribe holds an annual banquet for present members as well as alumni. It sponsors bonfire pep rallies before traditional football games, prints seasonal sport schedule cards, and sells license plate tags.

An exemplification of college spirit, this organization well deserves the praise it receives.

WOMEN'S AND MEN'S ATHLETIC ASSOC.

The Women's Athletic Association is an organization for "after hours" sports. Open to all interested, the WAA sponsors hockey, volley ball, basketball, softball and archery throughout the year. The 1947-48 season proved highly successful, for badly needed equipment was purchased, and new quarters from which to operate were located, in addition to the extra-enthusiastic receipt of all sports activities.

The Men's Athletic Association is comprised of two student representatives and three faculty members. The value of this organization can hardly be estimated since it is through this commission that all college men's athletic activities are supervised, co-ordinated, and financed. Everything from a band-aid for a basketball scratch, to the scheduling of games is the responsibility of the MAA.

FOOTBALL

You're Next

Time out!

The director

back, Gene Stempler, and end-runner, Co-Captain John Solomon, engineered the final thrust to victory.

The Arnold game proved the most heart-stopping encounter of the season. Playing under the disadvantages of arc-lights and mud, Montclair found themselves on the short end of a 6-0 score at halftime. Montclair completely dominated the third and fourth periods, but Arnold stubbornly repelled every goalward march. With Montclair's hopes for an undefeated season fading with each fleeting minute, the Indians found themselves at the midfield stripe. Digging deep into its lore of "razzle dazzle," the team uncorked three swift aerial thrusts that stunned the Arnold aggregation. The rifle arm of John Evanowski and the glue fingered receiving of Len Sobo broke the heart of Arnold's defense. The Coup de Grace was administered by the precision of Bill Gray's big toe. Final score . . . 7-6.

Weather cancelled the New Haven game, but it gave the rooters a breathing spell . . . who by now were hoarse from five weeks of spirited cheering.

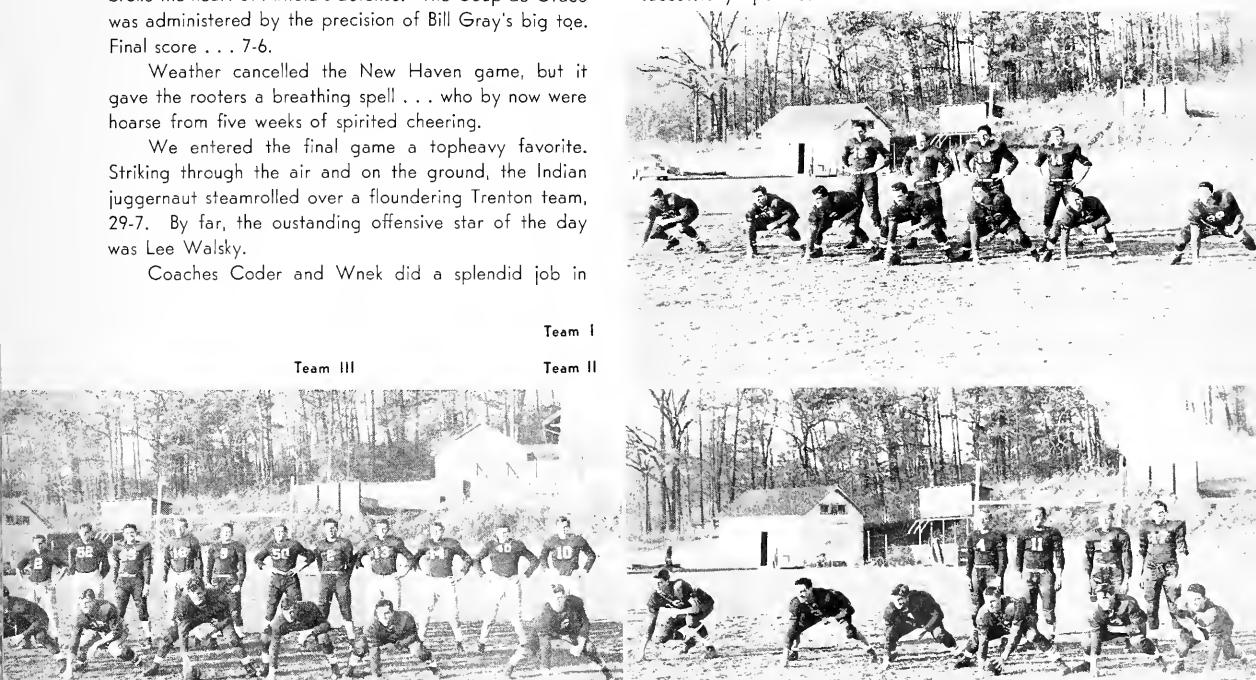

We entered the final game a topheavy favorite. Striking through the air and on the ground, the Indian juggernaut steamrolled over a floundering Trenton team, 29-7. By far, the outstanding offensive star of the day was Lee Walsky.

Coaches Coder and Wnek did a splendid job in

molding this great football machine. Next year will find the team minus two of its great stars. Indeed Nate Weiss and Muggs Maginness will be missed. The bruising line play of Nate, at right guard, will be hard to replace; Muggs' fleet-footedness gone will leave another gap hard to fill.

Additional honors were bestowed upon the College when Gene Stempler and Lee Walsky were awarded honorable mention on the Associated Press' Little All-American Team.

The student body extends hearty thanks to all the unsung heroes of the football season, too . . . the managers, coaches, medical men, announcers, and everybody connected in any way, without whom no team could successfully operate.

Red and White, fight, fight;
Red and White, fight, fight;
Who fight, we fight,
Team, team, team!!!

"Pass 'em high, pass 'em low! Come on, Indians! Let's go!" With a cheer like that, the Montclair men opened a 1947-1948 basketball season we're proud of! Five straight wins rolled around as the Indians commenced the season on December 2 topping Drew University, 80-70. Next came Jersey City State Teachers College, defeated 58-39; Rutgers College of Pharmacy, 52-48; Drew again, 62-52 and finally, Adelphi, 62-61. In the last game of 1947 the Tribe slipped, for at the hands of Paterson State Teachers College, MSTC received its first defeat, 50-48. Thus, the annals of that year's portion of the basketball schedule totaled five wins and two losses.

The Indian courtsters came back, however, early in January, 1948, to bring the Newark Teachers to their knees with a 92-30 victory. Three days later Newark Rutgers stopped MSTC, 43-39, in a hard fought game. Paterson returned the next week, and the Redmen reaped their vengeance in a 67-52 victory. Following, came the Panzer game in which the opposition managed to overcome an early Tribe lead to win, 49-46, renewing their famed basketball jinx over Montclair.

Next on the schedule came the Adelphi game, and another feather in the Indian cap. A score of 72-46 sent Adelphians scurrying.

In a trip down to Trenton State Teachers, Montclair men chalked up another victory over our traditional rivals, 45-42. January was brought to a successful close when MSTC traveled up North for the weekend to defeat the Connecticut Yankees at Arnold, 59-55, and New Haven, 64-60.

February opened with another Panzer victory over Montclair, 60-49, and in a terrific battle with CCNY which, incidentally, was broadcasted, the Indians fell, 80-46. The following game with East Stroudsburg was another disappointment, as the opposition fought hard to win, 59-51. The Indians rallied in the next two games, however, to defeat the Alumni 49-37 as well as the Trenton Teachers, 69-57. Newark Rutgers rallied, too, and in a heart-breaking 49-47 struggle, MSTC was topped.

Fans cheered loud and long in a terrific last minute, as East Stroudsburg fell this time, 61-60. The final game, held on February 27, was a fitting finale to a live-wire season as Montclair again defeated Jersey City Teachers College, 53-51.

And so, fellows, Montclairions offer thanks for another twenty-two game basketball schedule successfully completed. One of the reasons we're proud of MSTC is the fact that we have sportsmen like you!

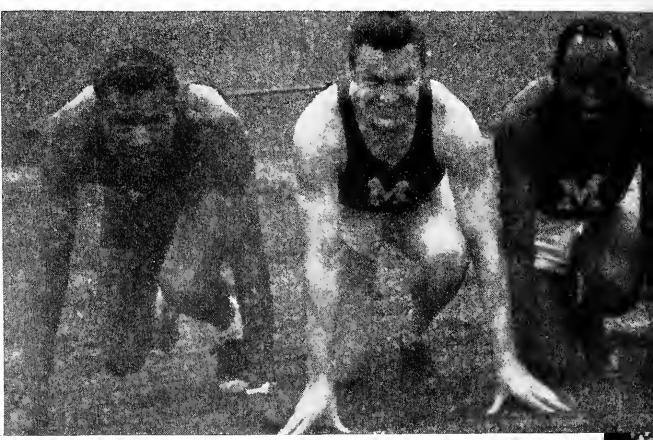

FIRST ROW, LEFT TO RIGHT: La Salle, Patson, Gifford, Petras, Sunyak, McCarthy, Zwillman, Urban, Arnold, Kull. SECOND ROW: Bessinger, Syrako, Duane, Ziobro, Walsky, Erb, Ferrie, Murphy, DeVito, Wnek.

BASEBALL

The Varsity nine blasted out eight wins to only four losses in one of the best baseball seasons Montclair had in years.

Every hard played game saw a cluster of faithful rooters who cheered Coach Wnek's boys, win or lose. The '47 squad laid the groundwork for even a better '48 team.

FIRST ROW, LEFT TO RIGHT: Feeney, Bauer, Becker, Salt, Mazziachi, Savage, De Pauw. SECOND ROW: Mr. Willing, Grasso, Geyer, Rhinehardt, Mulrooney, Grenschi.

CROSS COUNTRY

MSTC is again represented by a cross-country team after a lapse during the war years. Since few colleges of our size have organized such teams, competition with schools and athletic clubs has been necessitated.

Although none of our team has had previous cross-country experience, the team has shown up well this year. Since the squad is completely made up of underclassmen, an even more successful season is anticipated next year.

The harriers were captained this year by Harry Savage, and had Mr. Willing as coach.

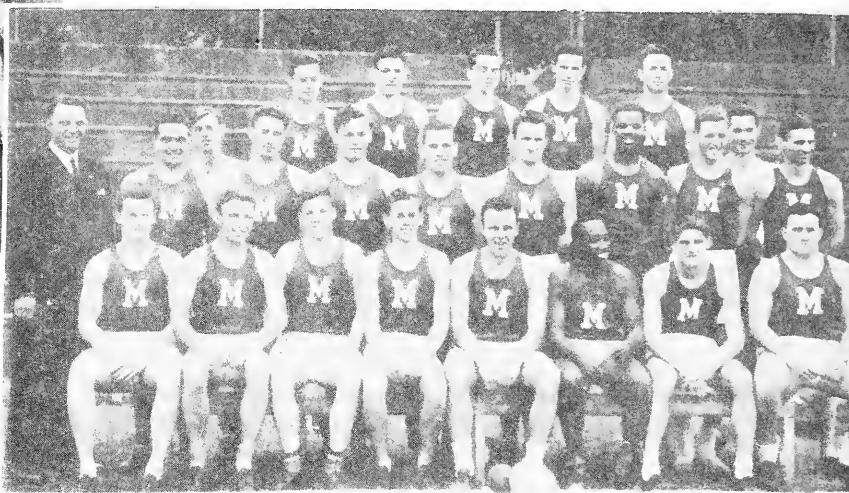

FIRST ROW, LEFT TO RIGHT: Solomon, Beier, Cox, Downing, Burgi, Harrington, Hamilton, Scarbnik. SECOND ROW: Mr. Coder, Hoener, Spalding, Weiss, Zlydzik, Bury, McGee, Seely, Ward, Bland, Wotjas. THIRD ROW: Gray, Sorocka, McLuckie, Mulrooney, Walsh.

TRACK

Spiked shoes, shorts and hard work combined for victory as the men of the cinder track sprinted, ran and jumped to three wins out of four meets. The Tribe harriers won over Brooklyn, Polytech, Panzer and Trenton, and dropped a close meet to East Stroudsburg.

Coach Coder organized a complete team in a month, whipped the team and the track into fine shape, and proceeded to win meets.

The field events men aided in the scoring, winning pole vault, high jumping and weight events.

TENNIS

If you've ever strolled by the tennis courts beyond College High, you've seen these fellows practicing; working hard to uphold the honor of the team and the College. Their efforts this season were not in vain, for despite handicaps that often accompany a new organization, these tennis enthusiasts gained valuable experience and self confidence.

The tennis team made its reappearance at Montclair during the 1947 season. Because of the war it had been disbanded, but since its revival, the team has shown definite progress toward bigger and better tennis seasons. The schedule was increased during the 1948 season, and included matches with East Stroudsburg, Drew, Trenton, Newark, Paterson, Upsala, and Panzer.

FENCING

Coach ROCCO FERRAVOLO
Assistant Coach ANNA MAY MARTIN
Adviser MR. GEORGE KAYS

With all the interest shown by the members of the Fencing-Club, Montclair will very likely be well represented by its teams.

An important part of the organization added last year is the girls' fencing team. This year the girls have had matches with other colleges in the vicinity, and eventually hope to be represented in the Girls' Eastern Fencing Collegiates.

During the war years the men's team was non-existent, so that last year saw the sport really reinstated here.

The school supplies Italian, French, and Belgian foils but to date there are no uniforms for the members.

FIRST ROW, left to right: Bernstein, Giblan. SECOND ROW: Martin, Disbrow. THIRD ROW: Montecuollo, Ferenzi, Mr. Kays, Feravalo, Perticone, Gardner.

GOLF

President ERNEST RIZZIO
Vice-President THOMAS FORTUNATO
Adviser MR. JEROME G. DeROSA

A hole-in-one is the ultimate goal of these MSTC golf enthusiasts. The club is a comparative new organization here at Montclair, but its membership is increasing, and the club, though still in its infancy, is strictly "up to par."

Four years have quickly flown by, MSTC, and now it is time to bid farewell. In future years, as we look back on our college days, we will cherish many fond memories of the campus, the profs, our fellow students, and in a word: our Alma Mater.

To our officers we, the class of 1948, express appreciation for a job well done, and to Montclair State Teachers College we say good-bye; these have been four years for which we are grateful.

CLASS ADVISER

Our farewell to MSTC would not be complete if we were to overlook our very capable adviser and Dean, Dr. E. DeAlton Partridge. Often unsung heroes, advisers are of inestimable value to a class, and the guidance, counsel, and strong willing leadership of Dr. Partridge have helped us greatly.

For his valuable aid afforded us this year, we should like to express our sincere appreciation to a very worthy class adviser.
